100% MADE IN ITALY SINCE 1957

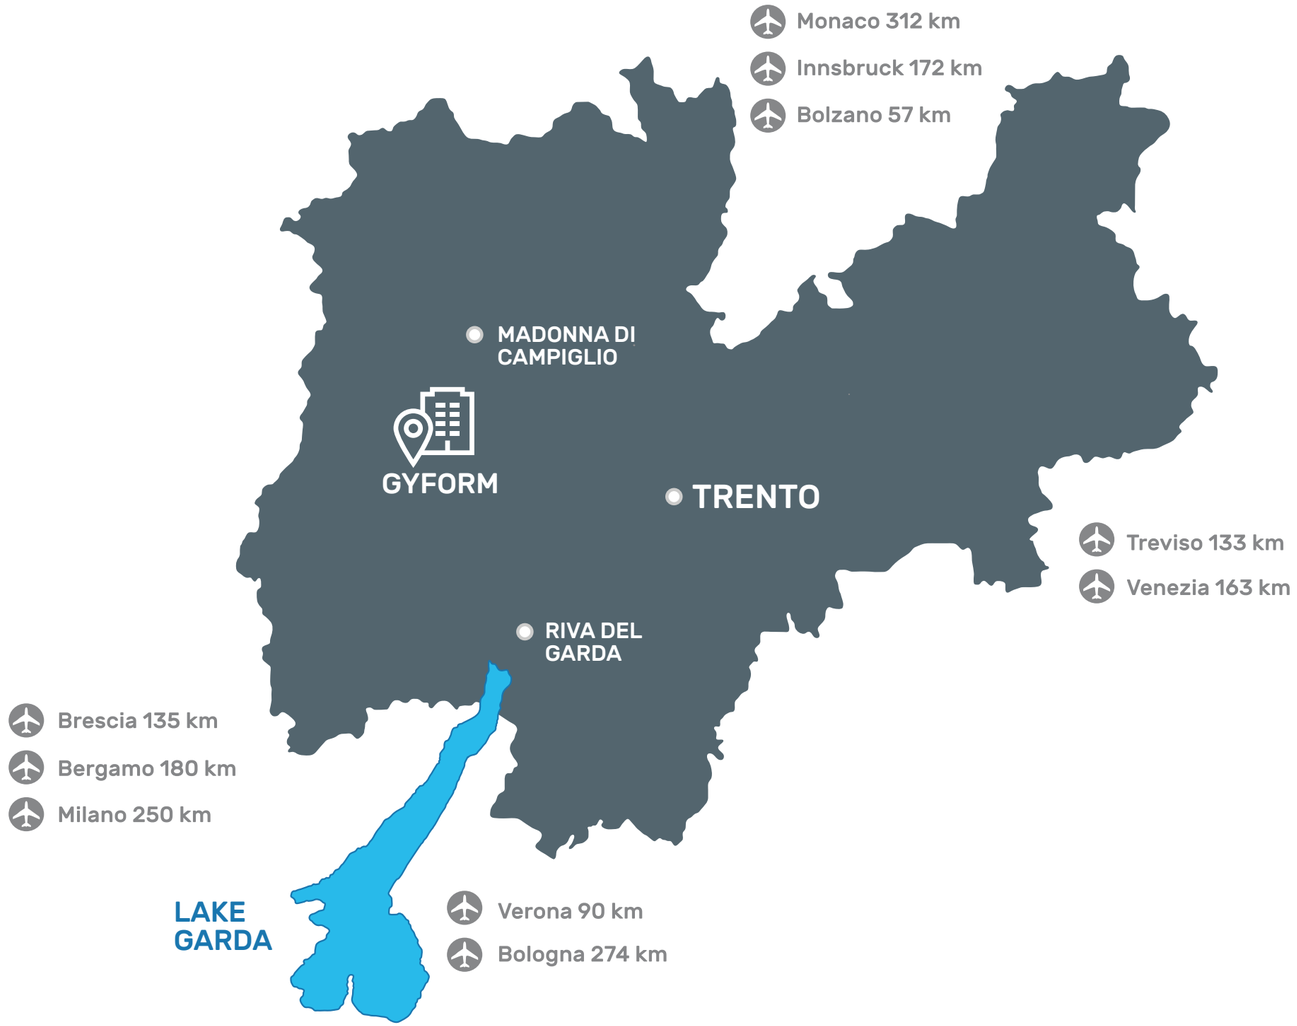

The history of Gyform was born in **Vigo Rendena**, in Trentino in the late 50's with the initiative of Guido Gasperi.

From the beginning, manufacturing was based on well-defined guiding principles: quality and tradition, as well as continuous innovation and vision towards the future.

Thanks to an elegant fabrication of **sofas and armchairs**, Gyform has become a benchmark for **high-end furnishings all over the world**.

Gyform uses a working method that preserves the **ancient culture of master upholsterers** and combines it with the continuous **technological innovation** of the production lines.
