BASIC STORAGES

Basic is an optimum and economical system of cabinets and shelves, with body available in three colours: aluminium, white and anthracite. The cabinets are available in the width of 800 mm and in 30H heights. The range is complemented with special cabinets such as a wardrobe, a tambour cabinet and a printer stand. By adding clear or frosted glass doors, one can build display cases. Simple construction and classic design make it possible to combine this furniture with other systems.

Basic pedestals can be mobile or fixed. The body of the pedestal is made of MFC available in three colours: white, aluminium or anthracite. The top drawer contains a removable pencil case for arranging office supplies. Among fixed pedestals, we offer pedestals for extending desk space with or without overhanging top.

A pedestal with a suspension files drawer has a mechanism adjusting the width of the frame so that one can hang files of various sizes

BASIC PEDESTALS

STANDARD storage cabinets represent a group of multi-purpose cabinets for various applications. The modular build and a wide range of finishes make it possible to adapt the storage units to the space and function. **STANDARD** line includes storages and upper sections with open fronts, wing doors, tambour doors, sliding doors or glass doors. If you need to store large quantities of documents, we recommend cabinets with metal shelves or suspension files cabinets. The **STANDARD** line also has managerial cabinets designed for setting up personalised work stations, and also mobile cabinets which can be easily rearranged in a given interior depending on current needs.

PRO STORAGES

PRO line is the high-end solution offering unlimited options for arranging office space. The design of the cabinets and the materials used make it possible to create pleasant and functional spaces. Storage cabinets are available in five widths and four heights. A wide colour palette and the possibility of making diverse colour configurations gives one great freedom in designing the interior. All models can additionally be fitted with metal bases and wide-angle hinges to reinforce the cabinets and facilitate their daily use.

The back of the **PRO** cabinet is made of 18 mm MFC with PVC edge. The cabinets may be levelled from the inside. As an option, the **PRO** cabinets can be fitted with a metal base

TAMBOUR STORAGES are an effective solution wherever tight space is a challenge. They were designed for interiors where it is necessary to effectively use a limited area. The front tambour comes in three colours: black, aluminium and white. It is fitted with a patent lock and a strip handle. In addition, the storage cabinet can be set on a metal base to reinforce its structure. **TAMBOUR STORAGE** cabinets are available in **STANDARD** and **PRO** lines.

SLIDING DOOR STORAGES are used in small spaces. Owing to the self-closing system, the sliding doors are quiet and save space. Storage units are available in four heights and three widths. The doors are fitted with patent locks. The STANDARD line cabinet is equipped with a handle whereas in the PRO line, handles are optional accessories.

ZSZ01 X 1 ADDITIONAL DRAWER 428/385/403 (16 7/8" x 15 1/8" x 15 7/8")

SLIDING DOOR STORAGES

SLIDING DOOR STORAGES represent a group of storage units distinguished by their simple form and design, but nevertheless universal and flexible in application. The set consists of a ZS01 cabinet with the front made of metal pattern combined with HPL laminate, a ZS02 cabinet with the front made of MFC covered with glossy HPL laminate available in nine vivid colours, and a ZS03 cabinet with the front made of MFC available in pastel and wood finishes. The interior of a cabinet may be fitted with drawers. The sliding doors have a metal self-closing mechanism facilitating soft closing.

WARDROBE

A **WARDROBE** is an essential closet for any office. The **STANDARD** and **PRO** lines include four wardrobe models differing in dimensions and interior arrangement. The finishes and sizes of the wardrobes match the **PRO** and **STANDARD** ranges and make it possible to integrate the wardrobes in every room.

Garment hanger bar

GLOSS DOOR STORAGES

GLOSS STORAGE units represent a range of cabinets with high-gloss HPL laminate finish on fronts. There are ten different colours available. They range from low-key grey, graphite to vivid green and pink. The body of the cabinet can be black, aluminium, white or anthracite. Such a colour scheme makes it possible to combine the cabinets with other components of the PRO or STANDARD line. The cabinet doors are fitted with a patent lock and a push-to-open system. Optionally, can be equipped with glass top.

GAYA X 4 CHAIR 660/510/825 (19 2/8" x 20 2/8" x 32 7/8")

GLASS DOORS complement the range of STANDARD and PRO storages.
 There are two types of glass available: clear and opaque, with an aluminium frame, or with no frame. Glass elements can be fitted in cabinets and bookcases of 400 mm and 800 mm in width as well as 30H and 50H in height, creating display cabinets which make excellent supplementary equipment of offices or exhibition places.

LOCKER STORAGES

LOCKERS are an answer to a growing need for optimising the office space.

Such units often replace pedestals in large offices. The locker is mainly designed for storing personal artefacts. Lockers can be assigned to specific individuals, and correspondence slots are an additional advantage. Apart from the traditional lock, the locker can be fitted with a combination lock or an electronic one. Lockers are available as 40H and 50H modules, 800 mm in width.

CARGO

STORAGES

Apart from serving as a pedestal, **CARGO** storage can also work as a desk pedestal or a side panel. Thanks to various configuration options, it can be combined in systems, eliminating desk legs. **CARGO** enables clear organization of office space and it gives it a clear structure.

The top shelf includes pencil tray. The internal structure of a **CARGO** unit divides the space into two equal parts. The spaces between the shelves allow storage of file binders in rows. The base is equipped with rollers which facilitate opening (pulling out) of the internal part of the unit.

STANDARD PRO AND GLOSS PEDESTALS

A pedestal is a necessary component of any work station. In the **PRO** and **STANDARD** lines, there are groups of fixed pedestals aligned in height with the desk, and mobile pedestals which can additionally be fitted with a cushion, doubling up as a seat. The colour scheme of pedestals perfectly matches **PRO** and **STANDARD** ranges.

KRT – metal drawers
separate pencil drawer

KDT – metal drawer
pencil tray

- To reinforce the structure, an additional roller in the pedestal is designed for versions with a bottom drawer with a file hanger
- KRT pedestals have a separate pencil drawer, and KDT pedestals have a plastic pencil tray in the top drawer
- All pedestals are by default fitted with metal drawers with a central lock and a foldable key, Anti-tilt mechanism and a silent closing system
- Suspension file drawer can be adjusted in width to fit any folder size; 100% extraction
- Castors with breaks
- STANDARD line includes pedestals with an extended top playing a role of a link and expanding the work surface

STANDARD PRO AND GLOSS PEDESTALS

Pedestals come in two basic versions: mobile pedestals of 586 mm height and fixed pedestals of 740 mm in height. Mobile pedestals are available with either 4 or 5 castors. Fixed pedestals have four level adjusters. Pedestals come in two depths: 600 and 800 mm.
